Omaka Rocka Rocks Aquatica in 2010

All-new waterslide thrill ride unlike anything in Orlando, opens this spring

Orlando, FL (December 17, 2009) – An all-new family waterslide rocks into Aquatica in Orlando with unique thrills including high-speed tubes and half-pipe funnels that'll have riders splashing and sliding forward and backward and climbing the walls.

The first waterslide of its kind in the world, **Omaka Rocka** opens this spring.

What makes Omaka Rocka next year's can't-miss waterpark ride in Orlando? Riders speed down flumes into massive funnels, sliding high up one side and then the other, rocking back and forth, feeling a sensation of near weightlessness.

Coming out of the funnel, they'll skim into a drenching splashdown and then find themselves wanting to do it all over again.

Omaka Rocka is a waterslide taste of half-pipe, near-vertical thrills previously experienced only by daring skateboarders and snowboarders.

Aquatica is a one-of-a-kind waterpark that could only come from SeaWorld. Inspired by a whimsical take on the South Seas, Aquatica immerses guests in the playfulness of the sea, taking them in, over and under the water with the world's most unique water rides and animal encounters. Aquatica mixes animal experiences, waters from serene to extreme, high speed waterslide thrills and wide, sandy beaches to create a day of non-stop fun.
